## MGB-PEBUB-1500-2L

85/65MM 2 Layers Air Bubble Film Extrusion Line

Air Bubble Sheet

### General Machine Specifications

Raw material applicable:	L.D.PE resin (film grade)
Final product specification:	1500 mmW/ 0.025-0.15mm thickness
Bubble sizes:	10mm $\phi$ x 4mm depth
Production speed:	15 - 50 M/min. approxi.

### General Machine Specifications

Mechanical speed:	Upto 60M/min.
Production capacity:	200-320kg/hr. approxi.
Operation power consumption (Max.):	175 kws approxi.
Normal operation power consumption (Avg.):	120 kws approxi.
